

## Ideas for OYEAH Fidelity

### The Questions are:

1. What do we want to measure?
2. How do we best measure it?

### Based on the OYEAH Practice Model

#### Phase 1: Relationship Formation (i.e. engagement)

- Terms to consider when measuring the *relationship*:
  - Empathy      Warmth
  - Genuineness      Reliability
  - Consistency      Nurturance
  - Collaboration      Agreement on Goals
- Tools to be considered:
  - Perception of Care section of the NOMS
  - The Relationship Questionnaire (Created by Pnina, based on the Helping Alliance Questionnaire & Perception of Therapeutic Process, Ward, 2000)
- Concern: Administration/completion of any tool

#### Phase 2: Planning

- Considerations
  - How well the Transition Specialist functions as a coach
    - Ability of encourage
    - Use of MI principles
  - How much does the young adult feels that s/he is participating in planning
  - Quality of the planning
- Tools to be considered
  - Youth Participation in Planning Tool
  - Look to Synthesis for data on the following:
    - Domain Review Checklist
    - Strengths
    - Needs
    - Benchmarks
    - Futures Plan
