

Jarvis, all I want to do is get this job, but the application process is so hard...

I don't have a car to get there. I don't have a computer to fill out the online application. I don't even know what they would want to see on my application!

Why don't you ask our neighbor, Mike? He's pretty helpful...

I just wish I had someone to ask for help...

You could always ask Mike! He helped us find each other after all...

YAWN

Hey! Maybe I could ask Mike. He gave you to me after all!
