Scenario

Supporting a Youth Seeking Support Regarding Gender Identity ~ Cory

As an infant girl, Cory and a sister had been adopted from Russia by a U.S. citizen but had a difficult relationship with the adoptive parent. At the age of 16, Cory was experiencing depression and was referred to a peer support project focused on enhancing self-determination. Cory engaged positively with a peer support provider, set many goals, narrowed down the goals to achievable ones, and made a list of steps to achieve these goals. As their relationship developed, Cory began to open up to the peer supporter about feelings around gender and issues of gender identity and desire to identify as a male. Cory’s fears were related to how peers would react, what the parent would think, and if the sister would be angry. Cory spoke about how everyone always wanted Cory to wear a dress, do more “girly” things, and stop talking about being “confused.”
